I recommend working with a Full-Service Mail Service Provider like Compu-Mail. That designation, along with "Mail Anywhere" status, simplifies permit management and gives you access to the largest postage discounts and lowest postage rates possible. Compu-Mail also offers drop-shipping and co-palletization options that save you money by skipping steps in the process to get your mail out - and in-home - quicker. I'm going to prescribe you this website page on logistics and postage so you can see where you'll save money. Give me a call and I'll help you find the best way to get your mail across the border.
