

Ask Dr. Omni, D.M.

What seems to be the problem today?

My projects involve a lot of vendors. It's a little overwhelming.

Doctor's Orders:

It might be best to start looking for a vendor with a wide array of service offerings to streamline the process for you. I'm going to prescribe you this infographic titled "Roadmap to Success: Choosing the Right Mail Service Provider" that advises you on the questions you should be asking yourself when choosing a vendor. Once you've reviewed it, give me a call and I'll show you how Compu-Mail addresses each of the questions and introduce you to some capabilities you may be not be familiar with.
